PERSONAL NEEDS

* **Mrs Helen Chan (ZES):** Thank God she has completed 14 sessions of chemotherapy in mid-May. She is grateful to the Lord for sparing her from pain and discomfort. She only experiences periodically nausea and fatigue. Presently, she is being prepared for radiotherapy to begin on 16 June. Pray that she will have minimal side effects from the treatment. She was diagnosed to have a blocked bile duct. She will undergo an endoscopy and stent insertion on 18 June.

* **Rebecca Lee (Our Missionary in Cambodia):**

- With the 2 quarantines book-ending January and May, she gives thanks to God for His protection, care and provision all the way.
- As she settles back in Phnom Penh, let's continue to uphold her in prayer as she serves the Lord.
- She requests prayers for 5 new workers and their 4 children who will be travelling to the provinces for ministry exposure over the next 3 months. Please pray for safety, good learning experiences and good relationship with people in the countryside despite COVID.
- She asks that she will delight in God's presence and joyful obedience to His Word.
- Pray also for wisdom to plan well as new workers arrive in the field during the next few months, and for the missionary in charge to return and take back the reins!
- Ask God for His mercy on Cambodia as COVID-19 cases increase by the hundreds day by day.
