

WEEKLY PRAYER GUIDE

CHILDREN'S MINISTRY

May the Lord provide and bless our Sunday School and Awana Clubs ministries in the following areas:

- * To be led by His Spirit as they navigate the complex and confusing process of resuming on-site classes based on the latest government guidelines.
- * To increase their faith and devotion to the Lord and protect all from harm and evil during this very trying time.
- * To continue to be able to use the online mode of teaching and learning to minister to children effectively and safely.
- * To find peace, joy and strength in God to endure and overcome all obstacles.

BLK123 DEEPAVALI VISITATION

7 November @ 11.00am

- * We thank God for a few new volunteers who have willingly offered their time for this ministry. Pray for more to be convicted to join us in getting to know the residents regularly.
- * Pray for the volunteers as they bring lunch and some Deepavali gifts to the residents next Sunday, that they may bring God's love and blessing to the residents who may be feeling lonely or who are facing various struggles during this time.
- * Pray for wisdom for the Mercy-Outreach-Evangelism (MOE) ministry as they plan how we can better engage the residents in the year to come.

WEEKLY PRAYER GUIDE

PERSONAL NEEDS

- * Remember **Joseph Ng** in prayer (son of **Philip and Nancy Ng – ZMS**): Pray for strength to go through the second round of chemo with the many side effects of nausea, vomiting, diarrhoea, loss of appetite, fever and low energy levels. May God's grace be sufficient for him. Pray for effectiveness in the 2nd round of chemo. The search for a matching related donor or a matching unrelated donor is still ongoing. Pray for a match to be found and a willing donor.

- * **Mr Peter Yeo (ZMS)**: He was admitted to TTSH last Tuesday night because his serum potassium was very low. While in hospital, the doctor discovered a blockage at the passage of the pancreas to the stomach. Once confirmed through MRI, the doctor recommends a procedure to clear the passage which carries some risks. Pray to the Lord to grant wisdom and guidance to the doctor and the family to make the best decisions for his physical needs. Pray also for **Peter** to be spared from pain and to experience the Lord's abiding presence and peace.
