

WEEKLY PRAYER GUIDE

BPCIS Member Churches

As part of the Bible-Presbyterian Church in Singapore (BPCIS), let us continue to support other member churches in prayer every month.

Shalom BP Church:

1. Pray for our Shalom BP's brothers and sisters-in-Christ as they fulfil their theme with three areas of emphasis: Loving our Members, Unbelievers, and Ministry.
2. Pray that they will be convicted of the Lord's command and respond in obedience.

Vaccinations of Our 5 - 11 years olds

Please pray that...

1. The young children will not be so fearful of the jabs and get the jabs quickly
2. The young children will take the vaccination well, not suffer too many after-effects and get back to full health quickly
3. The parents will have wisdom to calm their children, comfort them and give them confidence to go through it.
4. The parents might be able to accompany their child and give them assurance

WEEKLY PRAYER GUIDE

Personal Needs

Mr Tan Thoo Chia

(Father of James Tan ZMS)

He is still warded at TTSH after a fall two weeks ago. He is waiting for the social worker to place him in a community hospital or nursing home for rehabilitation.

Thank God that his situation has stabilised. Pray for God's peace upon Mr Tan and for him to continue calling on Jesus in time of need and to read His Word.

Valerie Tee (ZMS)

She was recently hospitalised at TTSH. Please pray that the doctors will be able to find the source of the bacteria infection in her blood.

Joseph Ng

In barely six weeks after achieving remission, his leukaemia has relapsed. Dr says that with such an aggressive disease, the risk of relapse even after transplant is high. An acute infection was also discovered in his sinuses and he had to undergo an emergency operation. The operation went well and I am now recovering in the ward.

He will have to undergo an additional one to two rounds of chemo to bring his condition to remission before going for the transplant. Pray that God will grant him and his loved ones hope in the road ahead.
